Education

University of Regina

Regina, Canada

Master of Computer Science

May 2019 - Apr 2021

- Courses Include: Information Theory, Cryptography and Data Security, Human Computer Communication, Topics on Communication, Information Retrieval, Rough Sets and Applications, Parallel Algorithm, Knowledge Discovery in Databases, Database Systems, Computer Systems Security and CS Graduate Seminar.

Indus University

Gujarat, India

Bachelor of Technology in Computer Engineering

Aug 2014 - May 2018

- Certification: WES evaluated Grades

Skills

Languages & Web Tech: Python, Core-JAVA, Adv. Java, SQL, React Native, C, C++, Kotlin, C#, VB.net, JavaScript, TypeScript, Angular, ASP.NET, Vue.js

Machine Learning: Regression Support, Vector Machines, Naive Bayes, K-Nearest Neighbors, Decision Trees, Cluster Analyses, Natural Language Processing

Database: MySQL, Oracle, SQLite, Microsoft SQL Server

Certifications: Certified .Net Full Stack Developer, Microsoft Certified: Azure Fundamentals

Professional Experience

CGI Inc.

Remote, Canada

Intermediate Software Developer - SK Health

Jan 2022 - Present

- Engineered and maintained production-grade RESTful APIs and microservices utilizing Vue.js and .NET to support the SK HEALTH project.
- Used interpersonal and communication skills to collaborate directly with clients on solution design, technical estimations, and business requirements.
- Implemented robust business logic, complex data validations, and error-handling mechanisms to ensure seamless application performance and reliability.
- Worked seamlessly with team members using agile methodologies and SharePoint to track sprint commitments and deliver high-quality software on schedule.
- Created and maintained extensive technical documentation covering APIs, system architecture, and deployment pipelines to aid in cross-team communication.
- Tested new features for usability and contributed to application support, actively identifying and resolving software bugs to ensure resolution.

Horizon Computer Solutions Inc.

SK, Canada

Junior Desk Analyst

Apr 2021 - Jun 2021

- Fulfilled project for Saskatchewan Polytechnic through WBM and Horizon Computer Solutions Inc. contractors.
- Provided Tier 1/1.5 troubleshooting to end-users, running predefined scripts and escalating support to senior technicians as required.
- Troubleshoot and provided support for products and services with assistance from senior staff members.
- Performed network support including verifying and configuring IP addresses and ports for computers.

Ace Infoway Pvt. Ltd

Gujarat, India

Data Analyst Intern

Jan 2018 - Apr 2018

- Worked as a Data Analyst on a live project in a 4-member team, responsible for manipulating the application's database.
- Responsible for developing, testing, improving, and maintaining new and existing databases.
- Performed advanced analyses to understand and explain trends and drivers of key marketing metrics.
- Provided error handling, implemented logging, and cloud fetching in the application.
- Delivered direct reporting for overall progress and daily reports to the supervisor, alongside timely communication with clients.

Projects

Online Grocery Management System

University of Regina

Database System Project

Sep 2020 - Dec 2020

- Built a database management system using Microsoft SQL Server Management Studio to perform CRUD operations.
- Created a cohesive User Interface using Microsoft Visual Studio.

Crop Production Prediction

University of Regina

Data Mining Project

Sep 2020 - Dec 2020

- Developed a data mining model based on crop production prediction utilizing Python 3.
- Analyzed a dataset containing crop production data spanning from 1997 to 2014.
- Designed a model to guide farmers on optimal crop selection across specific regions and seasons.
